It is a matter of pleasure to speak with all of you through this newsletter. We all can take pride from the fact that each one of us has contributed to the present day glory and growth of our college. The Newsletter will serve as an interface between the Institute and outside world. It provides information about the academic activities organized in the College. Information about co-curricular activities held during recent past is also shared. It gives me immense pleasure in seeing the articles by faculty and students on latest trends. I wish the newsletter should carry many more useful information and faculty and students should make use of these opportunities to express their views and to update their knowledge.
