Shri Rajendra Agrawal
Hon'ble Trustee MAIC

From a modest beginning in 2006, MAIC has grown into a fully integrated Educational institution. The guiding philosophy of which has been creation of knowledge, providing real time exposure that integrates globally. The objectives of imparting education, combined with creation, dissemination and application of knowledge, are being met in an integrated form, to create a synergetic impact. Students today are competing in a rapidly changing world. Simply covering the curriculum alone is never enough. The institution inculcates human values and professional ethics along with their academics, which help them to make decisions and create a path, which will be good for them, the society and to the nation. I wish all the best for bringing out this newsletter. This would definitely be an inspiration and motivation for the other students and staff to perform better and add on their contributions in the forthcoming issues. Congratulations to all.

Dr. Ila Dixit
HOD (BBA Department)

College life is considered as a bridge in our lives between our school days and career. MAIC prepared students with the finest academic and platform to generate dreams into realities. It gives new opportunity to explore, compare, compete and provide a platform to showcase their talent and more independent. Became a place where student takes the lot of pictures and records their experiences. MAIC Teacher's teaches many things and built our confidence to face the challenges and struggle in our future. One of the best things in the college field trip where they can go out and have a quality time with their friends and teachers and learning experience. Instead of just focusing on the study, a person must participate in activities and socialize as much as possible in the college life as well as these things help in the overall development of the person. Proud to be the part of MAIC. Best wishes to students for their future.
