IMPORTANCE OF PLEBISCITE

(Activities Conducted in the Context of SVEEP)

ELC setup is under process. Electronic communication with District Election Officer has been done for the setup of ELC at **Maharaja Agrasen International College**. Documentational and other essential requisites are also being prepared. Under the flagship program 'Systematic Voters' Education & Electoral Participation' (SVEEP), of Election Commission of India, **Rovers and Rangers of Maharaja Agrasen International College** has acted as a vibrant hub for mainstreaming the Electoral Literacy through a host of co-curricular and extra-curricular methods for the young and future voters for developing and strengthening the culture of electoral participation through hands on experience. **Various activities have been conducted under flagship, within and beyond classroom** to sensitize the students and population about electoral rights and electoral process of registration and voting.

Since the setup of Electoral Literacy Club is under process, appointments are yet to be done by the College. Once the ELC of Maharaja Agrasen International College is set up Executive Council will be functional; **meanwhile Rover and Ranger Unit of the College has been functioning as an effective alternate for ELC.** Rover Crew and Ranger Team of the college along with its Group Leader- Dr. Digree Lal Patel and its Incharge Mr. Abhijeet Chakravorty has been organizing and conducting a series of awareness activities within college and off college premises, in the local neighborhood to encourage voter and civic education to ensure that all constituents—men and women alike—understand their rights, their political system; voters must understand the constitutional obligations and must be sufficiently knowledgeable and well informed to cast ballots that are legally valid and to participate meaningfully in the voting process.

To sensitize students and general population on electoral process, voting rights and its importance never before have, all the students of the college including faculty members, been involved in movements for **Voter Education.** They are taking to the streets and using online social networks and communities for dissemination of information, materials and programs designed to inform voters about the specifics and mechanics of the voting process for a particular election, who is eligible to vote; where and how to register; how electors can check the voter lists to ensure they have been duly included; what type of elections are being held; where, when and how to vote; who the candidates are; and how to file complaints.. The main motto of the programs and activities is “Empower the Youth for a Sustainable Future and No Voter should be left behind.”

“AWARENESS FOR VOTING UNDER SVEEP YOJANA”

SEMINAR ON BASIC EDUCATION OF MAHATAMA GANDHI

It is through education that the form and the structure of the social order are established and maintained. It is concerned with aims, ideals, values and standards worked out by society. **In Gandhiji’s educational theory the development of the personality of child is more important than mere literacy or knowledge of different subjects. He said “true education is that which draws out and stimulates the spiritual, intellectual and physical faculties of children.”**

His scheme of Education envisages a close integration between school and community so as to make child more social and cooperative for his /her harmonious co-existence. The context of this seminar was to establish the fact that mere education without any practical knowledge is nonproductive. So through this Seminar various views were invited on how education and practical experience can contribute to decide the social order and in deciding the social order how voting can act as one of the tools.

SPORTS COMPETITION

Sporting event, we all know can produce emotional highs and lows. But these events wield even more power than we think, sports results can even swing the outcome of an election.

Indoor game and outdoor games were conducted by Rover and Ranger Team to bring all the students in a positive frame of mind, so that it will help them to interpret things around them more favorably, and they will spend more time thinking about the positive sides of the things they are judging. Since politics is not a direct part of basic education, so giving a political context and freedom to deliberate on it with proper understanding becomes necessary.

POSTER DISPLAY AT KOTA COLONY, RAIPUR by active members of Maharaja Agrasen International College, for Vote Education and Civic Education. The poster display was done to promote the main idea of SVEEP, and that is

“NO VOTER SHOULD BE LEFT BEHIND”

As is evident from all the documentation, news paper columns, and pics that Maharaja Agrasen International College has taken the entire movement under the flagship program ‘Systematic Voters’ Education & Electoral Participation’ (SVEEP), of Election Commission of India very seriously. All the activities conducted encompassed the basic voter information that every student irrespective of his/her voting eligibility, must have in order to arrive prepared at the voting station and vote on the dedicated voting days. Maharaja Agrasen International College has taken this bull by horns to enroll all the 18yrs or above in the electoral roll via educating the students on the background attitudes, behaviors and knowledge that stimulates and consolidate democracy.

MAIC understands that education on its own cannot sustain Democracy, however education can protect democracy when the population is supported in their activity by a responsive democratic state. Before conducting any activity, the context of the activity is assessed, appropriate strategy is developed, activity is designed and then implemented. Monitoring and evaluating is done throughout to ensure its success. Media, Printed materials, Posters, Banners, Arts & Culture, Face to Face Interaction, Drives etc., are some examples of the methods that college has used to institutionalize mechanisms to register eligible students as voters and sensitize those who are yet to be 18 yrs.
